HONGKONG, MAY 8TH, 1893.

WHEN the Praya Reclamation scheme was first conceived the Colony had reached the climax of a period of apparent prosperity, and its growth and prospects seemed amply to justify the project. Nor is there any doubt that eventually the filling in of the foreshore and the carrying of the bund out into deep water along the whole face of the city of Victoria will prove a very desirable and necessary improvement. Desirable from a sanitary standpoint; necessary to provide sites for further extension of the city on the level. Yet it must be confessed that the work was, after all, undertaken a little too soon. Events that could not have been foreseen have occurred which have set back the tide of the Colony's progress, and it now requires a period of rest for general recuperation. Trade has been woefully depressed, the colony has been drained of its capital by mining and planting projects outside its limits, most of which have ended disastrously, and emigration from the port has materially declined. There is also a general want of confidence among investors, which has produced stagnation in the stock market. This has in turn exercised an adverse influence on landed property, which has depreciated to a very considerable extent. Money is exceedingly tight, and large sums are locked up in at present unremunerative undertakings. Although two large sections of the Praya Reclamation have now been completed for some months there has only been one proposal for the land, namely, that by the Hongkong Club for a small lot at $3.00 per square foot, and even that was not a firm offer. Many of the marine lotholders experience great difficulty in financing their share of the cost of filling in, and the Government do not appear inclined to advance money for the purpose. Under these circumstances it is not surprising that a feeling should have grown up in favour of a temporary suspension of the Reclamation. Indeed, we understand that a petition is in contemplation for presentation to the Government praying that a Suspensory Ordinance may be passed for this purpose.

Great as the improvement to be effected by the Praya Reclamation will undoubtedly prove, and desirable as it is *per se*, it must be acknowledged the petitioners have some claim for consideration of their case. When the work was commenced there was every reason to believe the demand would keep pace with the supply, that the reclaimed land would be utilised as soon as available. This has proved to be a mistaken conclusion, in consequence of the wave of depression that has passed over the Colony. It will therefore be wise for the Government not to press forward too fast with the reclamation. If the work be suspended for a short period, say three or five years, the Colony will obtain a little breathing space in which to settle down and recover from its losses and blows instead of the strain upon its resources being continued and still further deferring its restoration to financial vigour. Let it not be imagined that we advocate the abandonment of the work of reclamation; such an idea would find few supporters, and on many accounts could not be entertained. But for the reasons above stated there can, we think, be little objection to the suspension for a short time of the work on those sections which have not been commenced or for which no contracts have yet been signed. Experience has taught us that it is possible to proceed too fast; we must be content to make more leisurely progress in the future. There may of course be some difficulties in the way of the Government acceding to the prayer of the petition. A regular staff of engineers and foremen is maintained for this work, and at first glance it may not seem easy to otherwise provide them with employment. If, however, the Governor could be persuaded to use his influence towards giving practical effect to that much-to-be-desired improvement the reclamation of the foreshore in front of the Naval Yard and Wellington Barracks, thus uniting the disjointed east and west portions of the city of Victoria, might not the staff and plant which would be released by the postponement we advocate be most opportunely employed meantime on this reclamation in front of the Imperial property, which has been only too long delayed?

H.M.S. *Imperieuse*, Capt. J. M. McQuhae, R.N., arrived at Amoy on the 3rd inst. from Hongkong.

The Austrian Lloyd's steamer *Thisbe*, from Bombay, left Singapore for this port on Saturday afternoon.

H.M.S. *Alacrity*, with Admiral Sir E. R. Fremantle, K.C.B., C.M.G., on board, arrived on Saturday from Pakhoi.

The Italian gunboat *Curtatone* arrived at Amoy on the 27th ult. from Hongkong and left on the 1st inst. for Shanghai.

We have received from the Tientsin Municipal Council a copy of their protest to the British Minister against the threatened alienation of half of Victoria Park.

Shanghai papers announce the death at Peking on the 24th ultimo, after a lingering illness, of Mrs. W. A. P. Martin, wife of Dr. Martin, President of the *Tung-wen-kuan*.

It is notified in the *Gazette* that Her Majesty has not been advised to exercise her power of disallowance with respect to the Ordinance to amend the Hongkong Code of Civil Procedure.

It is reported from Peking that the Tsung-li Yamên is unwilling to allow Sir Robert Hart to go on leave at present, as he is wanted to assist in the negotiations with Russia as to the Pamirs.

The Canadian Pacific Railway Co.'s R.M.S. *Empress of India*, from Hongkong, arrived at Shanghai at 2 a.m. on Saturday morning and sailed again at 3 p.m. and will be expected at Nagasaki at 6 a.m. to-day.

The times of light and dark in the Waglan flashes were not given quite correctly in the account in Saturday's issue. The times should be 2½ seconds light, 4½ seconds dark, 2½ seconds light, 2½ seconds dark, 2½ seconds dark, thus shewing a double flash every half minute.

Intelligence has been received that Commodore Bury Palliser has been promoted to Rear Admiral in Her Majesty's Fleet. We may expect soon to hear who will be selected by the Admiralty to relieve Admiral Bury Palliser as Commodore in charge at Hongkong.

The *Bangkok Times* says:—A rumour reaches us to the effect that a revolt has taken place in Cambodia, in which two French residents have lost their lives—one at Pursat, the other at a town or village in the neighbourhood of the Great Lake. This rising is said to have been the result of overtaxation.

A Chinaman, who was employed as cook on board the steamer *Kutsang*, which arrived at Singapore from Hongkong, on the 28th ult., was given into custody on a charge of culpable homicide not amounting to murder. It is alleged that the accused struck a Chinese passenger for throwing rice overboard, and that two hours afterwards the passenger died. The case was before the Court on the 29th and was remanded.

The following official movements are noted by the Tientsin correspondent of the *N. C. Daily News*:—Baron von der Goltz, who accompanied Mr. von Brandt to Korea, purposed, after visiting Japan, returning *viâ* Shanghai to accompany Baron von Schenck to Peking. Mr. Michie, jr., this month leaves the Italian embassy and joins the Customs service. It is also reported that Dr. Pritchard has joined the Customs, but before entering on his new duties he will take a holiday at home.

Mr. Ben Taylor's boxing tournament was held on Saturday afternoon at Causeway Bay, and was so thoroughly successful that it is probable regular fixtures will be arranged for next winter and that an effort to keep interest alive in the sport will be made by offering a few good trophies for a series of competitions. On Saturday some really good sport was provided. The men came down for pure love of the thing and played the game in sound vigorous style. Nearly all the bouts were well and evenly contested and some hard and clever hitting was witnessed. A comical bout between "Sweep and Baker" brought the affair to a close.

Affairs at Hankow, says the *N. C. Daily News*, are just now rather unsettled so far as the native traders are concerned. On the 19th of April a salt merchant failed with liabilities of Tls. 90,000 or thereabouts. Two general merchants then failed for Tls. 30,000 each, and a few days later a pawnshop with debts stated at Tls. 18,000, followed by a firm of silk dealers with Tls. 60,000, a native produce house with Tls. 50,000, and a large bank with liabilities stated at not less than Tls. 150,000, making a total of Tls. 350,000 in one week's time. In consequence of this state of affairs nearly twenty large and well-known hongs of Hankow are reported to be in difficulties.

Reports from the tea districts of Hunan and Hupeh, says the *N. C. Daily News*, give an encouraging account of the quality of this season's crop, which is said to be far superior to that of former years; but owing to the cold "snap" experienced last winter nearly half the number of tea groves were destroyed by the severe frost, thus bringing the out-turn to about half the quantity of ordinary years. The news of this has apparently affected both foreign and native buyers, for the number of Chinese tea buying hongs has lessened by twenty odd as compared with former years, and so far only one-tenth of the usual number of English tea tasters have arrived at Hankow, whilst the Russian *chasseurs* have also dwindled down to eight-tenths of their original number. A couple of Russians, it is mooted, intend to visit the tea district of Yang-lout'ung soon.

It was thought by every one, from the Viceroy in his viceregal yamên to the humblest ploughboy in the prefecture of Nanking, says the *Mercury*, that the severe cold of last winter had destroyed totally the spawn of the locusts that lay buried underneath the surface of the ground, but these locust *larvæ* have a wonderful tenacity of life, and now, just as the spring crops look green and flourishing to the eye, at the same time can be seen numerous small locusts, the size of a diminutive fly, hopping about in fields and country roads, defying the rigours of winter, and enjoying the genial warmth of approaching summer. In such numbers have they appeared in the different districts of the metropolitan prefecture that the officials are growing quite serious over the situation and have been establishing numerous offices for the collection of locusts and larvæ at "famine prices."

H.M.S. *Caroline* left on Saturday for Shanghai.

The U. S. corvette *Marion* arrived yesterday from Manila.

His Honour the Chief Justice and Mrs. Fielding Clarke are going to Japan for a two months' holiday. They leave by the *Gaelic*.

Tonkin papers report the occupation, on the 29th ult., of another post formerly occupied by the Siamese, Ho-sang. The Siamese retired without making any show of resistance.

The following are the returns of the average amount of bank notes in circulation and of specie in reserve in Hongkong, during the month ended 30th April, 1893, as certified by the Managers of the respective Banks:—

BANKS.	AVERAGE AMOUNT.	SPECIE IN RESERVE.
	$	$
Chartered Bank of India, Australia, and China	1,443,849	800,000
Hongkong and Shanghai Banking Corporation	4,516,401	2,000,000
	$5,961,452	$2,800,000

The Tientsin correspondent of the *N. C. Daily News* writes:—Talking of Consuls—the absence of the French and Russian officials at the von Brandt banquet was conspicuous; the smaller fleas here have of course to jump in the same way as the major saltatory hexapods in Peking. The action of Mr. von Brandt re the Audience Question was the reputed cause of the Peking officials' conduct, but surely this is the merest pretence, and is quite inadequate as an excuse for refusing to join in purely social festivities in honour of a distinguished man. It seems a pity that in our small attempts at social amity we should have dual and triple alliances with armed neutralities and all the other gigantic tomfooleries which characterise modern Europe.

From the *N. C. Daily News* we learn that a fire, which at one time threatened to be of serious consequence, occurred on the 25th ult. at 3 o'clock in the afternoon at the new Cotton Mills, outside the city of Wuchang. Through some cause yet unexplained fire was seen issuing out of one of the godowns belonging to the Mills, which contained an immense quantity of raw and uncleaned cotton. Fortunately the fire was discovered at an early stage, so that after an hour's hard work through the united efforts of about 1,500 workmen and soldiers under the superintendence of European employés, the conflagration was extinguished after completely burning down the godown and destroying its contents. The loss has been roughly estimated at about Tls. 8,000.

The troopship *Tyne* arrived on Saturday with officers and men for the *Penguin* and *Esk*, part of new crew for the *Egeria*, and supernumeraries for the station. The following is her passenger list:—*Penguin*.—Commander A. F. Balfour, Lieuts. G. W. Gubbins, C. B. Munro, D. T. Somerville, and Steward-Weigall, Lieut. J. E. Waugh (Navigating), Engineer T. R. Reynolds, Assistant Paymaster J. E. Morton, Boatswains T. Rice and W. H. Bennett, and 120 men. *Impericuse*.—Assistant Clerk L. E. Tier and 75 men. *Egeria*.—Surgeon W. G. Barnes, Engineer G. Pascoe, Boatswain J. Macaulay and 68 men. (The officers for the *Egeria* left the *Tyne* at Singapore and will join their ship there.) *Peacock*.—Surgeon D'A. Harvey. *Rattler*.—Lieut. H. Cotesworth. *Swift*.—1 man. *Curlew*.—Lieut. W. Dixon, R.M.A., and 1 man. *Leander*.—Act.-Lieut. H. Butterworth, R.N.R., and 2 men. *Archer*.—2 men. *Esk*.—42 men.

The *N. C. Daily News* makes the following important announcement:—We are informed by the Chairman of the Chamber of Commerce that he has information from Peking that the Tsung-li Yamên have expressed, to the British Minister, their willingness to sanction such expenditure as might be found necessary to defray the expenses connected with Sir Charles Hartley's report on the Woosung Bar. While heartily congratulating Mr. O'Conor on having obtained this concession, even if, as there is some reason to believe, the Chinese authorities do not propose to pay the whole of the expense, we must remember that it is mainly due to the perseverance of the Committee of the Chamber of Commerce, and especially of the Chairman, Mr. J. G. Pardon, whose letters have been weighty and persistent, informed by a thorough knowledge of the subject, and written with a conviction that seems to have carried conviction to the Yamên that something must be done without further delay.

A smoking concert was given very successfully on Saturday evening at the Recreation Club. The gymnasium was draped with flags for the occasion and a neat little stage had been erected at one end. Two large arc lights from the Electric Light Company gave splendid illumination and in spite of the crowded audience the heat was not uncomfortable. Hon. J. H. Stewart Lockhart made an excellent Chairman, the songs were good, and the evening proved so enjoyable that before its conclusion the Chairman expressed the hope that the concert was only the first of many more to come, which he was sure would stimulate interest in the Club. Among the contributors to the programme were Mr. Vowles, who gave a stump speech which was comical and a comic song which was not comical, Mr. C. T. Robinson, who rendered some coster songs in his usual good style, Mr. J. Möier whose "In Passewalk" brought down the house, Master Harold Hayward, who appeared as a pert and winsome young lady and sang something about a "Mr. Porter," Mr. C. H. Grace, who was in excellent voice, Mr. W. E. Crow, Mr. R. F. Lammert Mr. C. Lammert, Mr. G. C. Hayward, Mr. F. Grimble, Mr. H. Grimble, and Staff Sergeant Tennant. The excellent Band of the Regiment under Mr. Murphy was of course a great feature of the evening.

The Amoy correspondent of the *Mercury* writes under date of 26th ult.:—Two of our local Nimrods have just returned from up-country, where they have been tiger-hunting. Mr. Thornton, I.M. Customs, and Mr. Hellwig, the proprietor of Hazenstein's Hotel, left about a fortnight ago and succeeded in bagging two male tigers, one measuring about twelve feet from tip of his nose to end of tail, and the other measured about ten feet. One of these animals was shot in the early part of the evening by Mr. Hellwig, who used a Winchester rifle. He (Mr. Hellwig, not the tiger) waited patiently in a lungnan tree, having tempted the beast by making a small goat fast to the tree, and when the tiger came near a bullet was sent whizzing through his hide and he was secured. The other tiger was shot by both gentlemen, who fired at the same time, through a window of a small house just outside a village where they were lying in wait. Here, also, they used a small goat as a bait. Of course, there was great rejoicing in the villages, where these tigers had been very destructive in carrying off lots of goats, pigs and poultry. As the flesh and bones of the tiger are of great repute for their medicinal purpose, the sportsmen gave these parts to the villagers, bringing back only the skins. They were informed that tigers were plentiful in that part, and several tiger pups were offered for sale, but as it is a difficult undertaking to rear them, they did not purchase any. Most of the tiger pups brought in by the Natives for sale are very young, many of them not having their eyes open. These generally die before they can see.

POLO.

SCOTLAND *v.* THE WORLD.

This match took place on the Causeway Bay ground on Friday and resulted, as was expected, in a victory for the Land o' Cakes, the World being somewhat weakly represented owing to the absence in Shanghai of two or three of their best players.

Mr. Whitehead (back), Mr. Cruickshank (No. 3), Capt. Murray (No. 2), and Mr. Landale (No. 1) played for Scotland, and were opposed to Mr. Smyth (back), Mr. Meynell (No. 3), Mr. May (No. 2), and Mr. Howell (No. 1).

In the first quarter the Scots had decidedly the best of it, although they only scored one goal, which was hit by Mr. Cruickshank. Several other shots at goal went wide of the mark, while the World on their part missed a couple of chances of scoring.

In the second quarter some good fast play was shewn, there being several well-combined gallops up and down the ground. The World played up well but were hard pressed all through, though occasionally they broke away and made some stray attacks on their opponents' goal. Another goal was hit for the Scots by Mr. Whitehead and a third by Mr. Landale, Scotland winning by three goals to love.

For Scotland Mr. Landale was in good form at No 1 and was well supported by Capt. Murray, who played a sound and at times dashing game. Mr. Cruickshank's hitting was accurate and hard, but he must keep his place and not poach the way he does if he ever means to make a Polo player. Mr. Whitehead hit hard at back and saved his goal well once or twice, but he shewed a strong tendency to relapse into an old habit of his of hitting round the ground instead of straight up and down it. If the ball is not kept rolling straight up and down the ground, a fast galloping game becomes an impossibility. For the World Mr. Smyth was in first class form at back and the rest of the side played an uphill game with much pluck and determination, Mr. Meynell being specially conspicuous in the second quarter.

HONGKONG VOLUNTEER CORPS.

The following regulations made by His Excellency the Governor in Council, under sections 9 and 12 of the Volunteer Ordinance of 1893 made the 4th day of May, 1893, are published in the *Gazette*:—

1.—The object of the Corps shall be to aid the Regular Troops in the defence of the Colony against foreign attack and to assist in case of local disturbance.

2.—The Corps shall be called the "Hongkong Volunteer Corps" and the members are subject to the provisions of the Volunteer Ordinance, 1893, and to the regulations made thereunder.

3.—In order to ensure a completely military character to the Corps it will, with the consent of the Major-General Commanding the Troops for the time being, be administered by him, under the control of the Governor.

4.—The Corps shall consist of—
A Battery of Light Field Artillery (to be trained also to work guns of position).
Three Machine Gun Companies.
All non-commissioned officers and men to be armed with carbines.

5.—Members must be British subjects, and on enrolment must be not less than 17 years of age and not above 49 years. They must also be physically fit for military service. They will be admitted to a Battery or Company by ballot among the members of the unit.

6.—Members shall take the oath of allegiance, or make the declaration, as required by the Ordinance and shall sign the following form of enrolment and be bound thereby:—

I.....being desirous of becoming an active member of the "Hongkong Volunteer Corps" and having been duly elected thereto, do hereby engage to be bound by any authorised rules and regulations which may now be in force in the corps or which may be brought into force during my period of service.

7.—The establishment of the corps will be as follows; but recruiting of supernumeraries for any unit will be permitted so long as the total number fixed as the establishment of the corps are not exceeded.

	FOR THE BATTERY. Establishment.	FOR THE BATTERY. Maximum.	FOR EACH COMPANY. Establishment.	FOR EACH COMPANY. Maximum.
4 Captains	1	1	1	1
9 Lieutenants	3	3	2	2
18 Sergeants	6	6	4	4
18 Corporals	6	6	4	4
168 Gunners and Fvts.	65	24	40	24

1.—Commandant.
1.—Adjutant.
2.—Surgeons.

8.—The appointment of the Commandant and the Adjutant will be in the hands of the Governor.

The appointment of officers to batteries and companies will be made by election by members of the respective units, subject to the approval of the Governor, and to their passing such professional test as may be required.

The appointment of non-commissioned officers to units will be similarly made, subject to the approval of the Commandant and to the required examination being passed.

Promotion will, except under extraordinary circumstances, be by seniority in each unit, subject to passing the regulated tests.

9.—All appointments and promotions of commissioned officers shall appear in the *Government Gazette* and shall take effect from date of notification.

10.—Uniform will be provided by the Corps for all Volunteers in accordance with the scale laid down in schedule A. Officers will provide their own uniform and appointments.

The uniform for the Field Battery will be the same as that hitherto worn by the Volunteer Artillery.

That for the Machine Gun Companies will be selected by the members subject to the approval of the Governor.

Detailed description of the uniforms when finally settled will be given in the Schedule.

11.—Uniform shall be worn at all parades when so notified in Corps, Battery or Company orders. Under no circumstances may articles of uniform be worn with plain clothes.

12.—Practice ammunition, in the proportions laid down in Schedule B, will be provided annually out of the funds of the Corps.

13.—The drill season will extend from 1st March to 15th April or a similar period at such other time of the year as may be found more suitable. During drill season parades will take place twice a day. Fortnightly drills will take place during the rest of the year.

Classes will be held at convenient times throughout the year for the instruction of members desirous of obtaining certificates of qualification for promotion.

14.—The Annual Inspection will take place at the end of the drill season. It will be made by the Major-General or by the Field Officer appointed by him for the general supervision of the Volunteers.

15.—As prescribed by the Army Act it will be the duty of the commanding officer when he knows that any non-commissioned officers or men belonging to the Volunteer force when not in actual military service are about to enter upon any service which will render them subject to military law, to provide for their being informed that they will become so subject and for their having an opportunity of abstaining from entering on that service.

16.—The Government will provide and maintain suitable premises, and will supply arms and accoutrements for the use of the Corps.

A capitation grant will be paid annually to the Commanding Officer of $30 for each member borne on the Muster Roll on the 1st of January or recruited between that date and the 1st of October; and a further grant of $26 will be paid for each member who is certified by the Inspecting Officer at the Annual Inspection to be efficient as defined in Schedule C.

In the event of a member for whom the $30 has been paid leaving the Corps, under circumstances not deemed by the Governor to be satisfactory, before the expiration of six months the Corps

Of the six that started Majestic was favourite. Just entering the Straight Mr. Hough brought his pony along in splendid style, and after a most exciting contest Talisman succeeded in coming home just a neck ahead of the favourite; Noirmont a good third. Time, 2min. 41⅘sec. Mr. Hough on going to weigh in was received with a great ovation.

The RACE CLUB CUP, value Tls. 150; for China ponies; weight for inches as per scale; winners at this meeting of a race of one mile or under to carry 3lbs extra; over a mile, 7lbs. extra; penalties accumulative up to 10lbs.; entrance, Tls. 5. Two miles.

Mr. Treban's Bovril, 11st. 11lb. ...(Mr. Read) 1
Mr. Buxey's Home Guard, 11st. 3lbs. ..... (Mr. Baker) 2
Mr. John Peel's Vagrant, 10st. 12lbs. ... . (Mr. Hough) 3

This contest only brought out three starters, of which Bovril was favourite. When the flag fell Bovril got away with the lead, Vagrant being second, and Home Guard last. After the first few strides Home Guard got into second place, the order at the Monument being Bovril, Home Guard, Vagrant; and the same order was maintained passing the Grand Stand, Vagrant and Home Guard being almost on even terms, a few lengths behind the favourite. Bovril was still leading at Loongfoi, but going along the Back Straight Vagrant was let out and succeeded in getting the lead for a short distance. But before the Monument was reached the favourite had again assumed the premier place, and held the lead to the finish, although on entering the Straight, Home Guard made a plucky bid for the race. Bovril won by half-a-dozen lengths from Home Guard; Vagrant, thoroughly ridden out, a bad third. Time, 4 min, 21⅕ secs.

The CONCORDIA CUP; value, Tls. —; presented by members of the Club Concordia, added to a Sweepstakes of Tls. 10 each; second pony to receive 40 per cent.; and the third pony, 10 per cent. of the stakes; for China ponies, *bonâ fide* griffins at date of entry; weight for inches as per scale; winner of the Derby, 7lbs. extra. One mile and a half.

Mr. Josser's Firefly, 10st. 12lbs. ..... (Mr. H. Sampson) 1
Mr. Sassoon's Preceptor, 11st. 11b. ..... (Mr. Dallas) 2
Mr. Ring's Omar, 11st. 4lbs. (Mr. Meyerink) 3

A field of eleven got away nicely together when the flag dropped, Firefly being the most strongly favoured. Although Preceptor made a bid for the race at the Bushes Firefly beat him easily down the Straight and won by four lengths from him, with Omar a good third. A very popular win. Time 3 min. 15⅘sec.

The MONGOLIAN CUP, value, Tls. 100; for subscription griffins only; winner of the Subscription Stakes, 5lbs. extra; weight for inches as per scale; entrance, Tls 5. One mile and a quarter.

Mr. Weed's Vean d'Or, 11st. 4lbs. ..... (Mr. Melherbe) 1
Mr. Newbay's Pick o' the Basket, 11st. 11b. ..... (Mr. Midwood) 2
Mr. John Peel's Watchman, 10st. 12lbs. ..... (Mr. Hough) 3

Eleven started, Gaoler being strong favourite. Entering the straight Vean d'Or was several lengths ahead of the field and won as he liked from Pick o' the Basket, with Watchman a good third. Time, 2min. 44⅘sec.

The SPRING CUP, value Tls. 100, added to a sweepstakes of Tls. 10 each, less Tls. 50 to the second pony; for China ponies that have never won a race; weight 11st. for 13 hands; to give or take 6lbs. for every inch over or under. One mile.

Mr. Buxey's Blue Beard, 11st 6lbs. ..... (Mr. Baker) 1
Mr. Sassoon's Snowstorm, 11st. 6lbs. ..... (Mr. Dallas) 2
Mr. Uto's Nonpareil, 11st. 0lbs. (Mr. Reynell) 3

Twelve started. Blue Beard was favourite and won after a capital race by a short head from Snowstorm; Nonpareil a bad third. Time, 2m. 07⅘s.

The SHANGHAI STAKES; a forced entry of Tls. 5 for all ponies, except for those entered in the Roadsters' Plate and Subscription Griffin races only; first pony to receive 75 per cent.; second pony, 15 per cent.; third pony, 10 per cent. of the stakes; weight for inches as per scale. One mile and a half.

Mr. Sassoon's Hero, 11st. 7lbs. (Mr. Dallas) 1
Mr. Buxey's Torchlight, 11st. 10lbs. ..... (Mr. Sampson) 2
Mr. Treban's Majestic, 11st. 7lbs. (Mr. Baker) 3

Six started. Torchlight jumped off with the lead, but soon gave place to the favourite, the invincible Hero, which romped round the course in his usual style and won finally by half-a-dozen lengths from Torchlight; Majestic, having given way at the Bushes, finished third. Time, 3min. 13⅘sec.

The TAOTAI'S CUP, value Tls. 100; presented by H. E. the Taotai for China ponies; weight, 12st.; winners, at this meeting, 5lbs. extra; entrance, Tls. 5. One mile.

Mr. Sassoon's Mighty, 12st. 0lb. (Mr. Sassoon) 1
Mr. John Peel's Merry Thought, 12st. 0lb... (Mr. Hough) 2
Mr. Ring's Guiding Star, 12st. 0lb. ..... (Mr. Meyerink) 3

Only five faced the starter, Guiding Star being favourite. Mighty, although challenged at the Bushes by Merry Thought and the peacock blue and gold, showed in front of the Judge's box a couple of lengths ahead of Merry Thought; Guiding Star being third. Time, 2min. 8sec.

The SHANGHAI STAKES, value Tls. 100 to winner, added to a sweepstakes of Tls. 5 each to be divided equally between the first and second ponies; for *bonâ fide* griffins at date of entry; weight for inches as per scale; winners 7lbs. extra; subscription griffins of this meeting allowed 5lbs. Five furlongs.

Mr. Sassoon's Blackberry, 11st. 4lbs. (Owner) 1
Mr. Common's Childeric, 11st. 6lbs. ..... (Mr. Crawford) 2
Mr. Fernando's Buccaneer, 11st. 11b. ..... (Mr. Midwood) 3

The large field of fourteen got off nicely together, Blackberry, the favourite, leading slightly. At the Monument the order was Blackberry, Childeric, and Buccaneer, and this order was maintained to the finish, the favourite winning by three lengths. Time, 1min. 15sec. —Condensed from *Mercury*.

THE KOLAO HUI.

THE INQUEST ON LI HSI-N-MOU.

Particulars with reference to the *post-mortem* examination of the body of the alleged Kolao Hui chief, Li Hsien-mou, who is alleged to have committed suicide on the 20th ult. and whose wife, concubine, and slave girl also followed his example in the prison of the Kiangning prefectural *yamên* at Nanking, are to hand. On the morning after the suicide, says our informant, in obedience to orders from the Viceroy Liu K'un-yi, the Viceregal deputies, the expectant Prefects Ch'ên Chung-fan and Yuen Shui-an, and the Chahsien Lu Ta'in-chiang arrived at the Kiangning Prefect's *yamên* at 10 o'clock. These officials were met by the Kiangning Prefect, Li Siao-hsien and the Chahsiens of the two metropolitan districts, Tao Ch'ung-fang and Lan Yün-fung. After a short conversation in the reception hall of the *yamên*, the six officials proceeded to the gaol, where the warden Ting Chien-ch'uan, under whose care the deceased had been, stood ready to receive them. After these officials had each taken a cursory glance at the body in order to satisfy themselves that no fraud had been used in substituting some other body, they sat down according to seniority in the improvised Court in the large yard of the gaol. Eight of the gaolers whose duty it had been to guard Li Hsien-mou were then examined. They stated that the deceased had always behaved with perfect circumspection and never was known to have shown ill-temper or violence against his gaolers. Owing to the fact that there were ladies and women servants attending upon the deceased they never ventured to intrude upon his privacy, simply contenting themselves with the knowledge that their prisoner was inside and had not run away; hence it was impossible for them to know how the deceased had met his death. The servant of Li Hsien-mou was then called and stated that being a new hand he never entered the deceased's room unless called for by his master. Liu-yung, the official body examiner, was then ordered to make a careful sorting of the body, which was carried out of the deceased's room and laid in the courtyard before the examining officials. Permission being given to Liu-yung to strip the body of its clothing, the next step done was to wash the body with alcohol and then to insert long silver needles into the throat and other parts of the body and after the lapse of a quarter of an hour these needles were pulled out, and found to be quite black, whereupon Liu-yung called out in a loud voice that "the deceased had met his death by taking raw opium." The bodies of the wife and concubine of the deceased were then ordered to be examined, and they were also brought into the courtyard, but this time by the female gaolers, six in number, who also asked permission to strip the bodies. Here the examining officials, after a consultation, came to the conclusion that as Li Hsien-mou's wife was the daughter of a high official, and both the dead women belonged to the family of a man who although degraded still had been a military officer of the fourth rank, as well as having been the son of a General, it was seemly or right to treat the dead women like the family of an ordinary man, hence permission was refused; but the female examiner was allowed to use a pair of scissors and cut portions of the clothing where it was necessary to insert the silver needles. This being done, the same result ensued —on being pulled out the needles were shown to be very black which also proved that the women had taken a dose of raw opium. Li Hsien-mou when alive was a great opium smoker, which accounted for this position of the drug.

There are a great many rumours as to the reason of his suicide; the chief one being that being afraid of meeting a witness—the lately captured K'uang Sheng-ming—who is said to have accused him of having given Tls. 30,000 to Mason to buy arms with, and knowing that torture would compel him to "confess" whether he wished or not, Li Hsien-mou preferred death while with a "clean name" he might expect a decent burial. There is another rumour, the mother of Li Hsien-mou died a month ago in Honan, his native province, and the news coming to him, he applied for leave of absence to return home, offering to get Yu-K'uan, Governor of Honan, to stand security for him. Lui K'un-yi, the Viceroy of the Liangkiang, however, refused to accede to the petition of the deceased, who feeling that he could leave Kiangning gaol only as a corpse, took this last course, and his wife and concubine and slave girl seeing him dying, followed his example, the slave girl only being saved from the effects of the poison. Whatever may have been the reasons for the act, the examining officials, however, displayed unexpected sympathy for their victims and after the *post-mortem* they gave strict orders to the gaolers to reclothe Li Hsien-mou in official garments, hats, boots and all; the poor women being also dressed in the manner usual to their rank in life. The best of Chinese coffins were then procured and a guard of eight men left to keep a strict watch over them.

Writing on the same subject our Nanking correspondent says:—It will be remembered that a year ago or more an Expectant Taotai of Ngankin, Li Hung by name, was arrested on the charge of being a leader of the Kolao Hui. He was a son of Li Sz-tsung, a Taiping leader who returned to his allegiance before the fall of the rebellion.

There seems to have been no evidence against Li Hung worth consideration, but he has been kept in prison for the sake of extorting a good sum of money from him. He is said to have been very wealthy. A few days ago in company with two wives he committed suicide at the place of his confinement in the Prefect's *yamên*. The three suicides have thus appealed to the Emperor against the injustice of the Viceroy. Feeling runs very high and the people are outspoken in their condemnation of Liu K'un-yi. The Prefect's *yamên* is strongly guarded by soldiers. This step was made necessary by the report that four of the chief officers of the Kolao Hui were in the city, determined to make a demonstration against the Viceroy. The city is full of rumours and these grow so rapidly that it is difficult to learn just exactly what is true. Law-abiding citizens, however, who have no sympathy with the Kolao Hui say that there must be an end to these murders, that more than fifty people have been put to death who in all probability were innocent.

Further advices from Nanking with reference to the suicide of the alleged Ko-lao Hui chief Li Hsien-mou state that the "confessions" of K'uang Shih-ming the second chief of the society who was captured in Hunan by Chang Chih-tung's men and who had been brought to Nanking to force Li Hsien-mou, amount to a about denial that this man was a member of the society, so it appears that if Li Hsien-mou did indeed commit suicide in order to escape the consequences of being proved to be the same person as Li Hung, his fatal act was rather premature; but what has caused universal joy amongst the people at Nanking is the fact that Lieutenant Wan Sung-ting who was Li Hsien-mou's accuser and who was the means of his arrest, after having confessed at the time his repentance for having joined that society, and being pardoned by the authorities, has been re-arrested and put in chains owing to the confessions of K'uang Shih-ming, who depicts Wan as being one of the great leaders of the society, instead of as he himself stated last year only a "novice." This incident is universally called a "retribution from Heaven" on account of Wan's false accusation which caused the arrest and sufferings of Li Hsien-mou and finally his suicide.

There seems to be a strong feeling among the Chinese, as our Nanking correspondent mentions, that the suicide of the so-called Li Hung is practically a judicial murder, and we understand that it is likely to go hard with the official to whose custody Li Hung was relegated, and in whose *yamên* the fatality occurred. It will be remembered that there was a general belief among the Chinese that Li Hung's father, Li Sze-kwang, was judicially murdered by Yü Lu when the latter was Governor of Anhui.

We learn that Li Hsien-mou's gaoler committed suicide soon after his prisoner's death was discovered.—*N. C. Daily News.*

THE TEA SEASON AT FOOCHOW.

In this most conservative of countries everything is conducted by certain rules and therefore, owing to the present Chinese Year not having an intercalary month, the date for the inauguration of tea picking fell a fortnight earlier this season. Teas from the neighbouring district of Pakling are already available for shipment.

In a few days more, most of our foreign tea buyers will have returned; and it may therefore be useful to indicate in some degree the prospects of the coming Tea season.

The native tea growers all made money last year, and this is more than attested by the fact that the amount of treasure sent into the country for the purchase of lead exceeds in value that of 1892 by 20 per cent. With the diminished scale of prices now given for Foochow tea, it will be well to bear in mind the enormous increase in buying power this money represents.

Last year after the first steamer, the rate of freight to London dropped to £1.10. This season, the P. & O. advertised rate through to London is 55/- and with the "Conference" again in existance, a corresponding increase in freight will have to be allowed for by buyers. On the other hand, a reduction of 2d. per dollar in exchange is causing teamen to be jubilant over the prospects of getting higher prices.

From the consuming markets what are the prospects? Australian trade is paralysed for the time being by the failure of Banks of hitherto high standing and good repute. In London, while common teas still command high relative rates, the difficulty of getting over 83. per lb. for any Foochow tea has been intensified, notwithstanding the strong statistical position of tea. This is mainly owing to the public appreciation of Indian and Ceylon and the good value obtainable in these at from 7d. to 9d. per lb.

Everything points to great exertion being required, if the success of 1892 shipments is to be repeated: and the principal point we would impress on our buyers is that moderate shipments in various steamers, is the only possible way of keeping a fairly steady market at the consuming end.

Various reports come as to the quality of new leaf. Certainly, the first arrivals of Pakling were better than last year's; but the last few days of rain have had a most prejudicial effect on the subsequent pickings.

Statistics if given at all should be accurate, or else are likely to be a snare, instead of a guide. The last Chamber of Commerce circular gave the total arrivals of Congou as 327,500 chests and yet settlements reported give 328,101 as bought. This circular also ignores the shipments made indirectly both to the Colonies and London.—*Echo.*

CATARRH, HAY FEVER, CATARRHAL DEAFNESS.—A NEW HOME TREATMENT.—Sufferers are not generally aware that these diseases are contagious, or that they are due to the presence of living parasites in the lining membrane of the nose and eustachian tubes.

Microscopic research, however, has proved this to be a fact, and the result is that a simple remedy has been formulated whereby these distressing diseases are rapidly and permanently cured by a few simple applications made at home by the patient once in two weeks. A pamphlet explaining this new treatment is sent on receipt of 2½d. stamp by A. HUTTON DIXON, 43 and 45, East Bloor St., TORONTO, Canada.—*Scientific American.* [978

GAOL REVOLT AT BANGKOK.

ELEVEN PRISONERS SHOT.

Bangkok was startled about 2 10 p.m. on Saturday, 22nd April, by the sudden appearance of a dense cloud of smoke in the direction of the New Gaol, and by the report that a serious outbreak had occurred among the convicts, who had set fire to the workshops. Strangely enough, a rumour had recently been circulated to the effect that a rising among the prisoners was planned for the 10th of the Siamese month, which would have been the 25th, but little attention was paid to the report. It appears that the convicts employed in the sawyard workshops of the gaol, seizing their opportunity while only one warder was at hand, rose at a preconcerted signal. The warder was rendered powerless, and then several of the men set fire to the place while others proceeded to break open the door with hatchets. In this they were immediately successful, as the door gave way easily, in spite of the strong locks and bolts with which it was provided. As there was no obstacle between this door and the high road, the convicts, to the number of twenty-three, were instantly at large—the awkward position of the sentry-turrets preventing them being fired on from above. The military guard of the prison were promptly turned out, and they fired on the escaping prisoners, who were seriously hampered by their chains, with deadly effect. Seven of them were killed or mortally wounded, four others were so desperately wounded that they died shortly afterwards, seven more wounded men were removed to the gaol-hospital, four were recaptured on the following day (Sunday), and one is still at large at the time of writing—this making up the complement of twenty-three who got out. Among the recaptured was the ringleader of the outbreak, and it is a noteworthy fact that only one Chinaman was among those concerned in the rising. Several dramatic incidents marked the occasion. The warder who was seized by the mutineers and held as a screen between them and the guard, was inadvertently shot by the latter in the region of the shoulder, the same bullet afterwards pursuing its course and mortally wounding one of the prisoners. One man was shot in endeavouring to swim the canal. Another, on being retaken, made an ineffectual attempt to commit suicide by cutting his throat.

Meanwhile, the workshop had been fired in the most determined manner, and the smoke of the conflagration could be seen for miles. And in spite of the efforts made under the superintendence of the Governor to get the flames under this wing of the prison was completely gutted. The amount of damage done was considerable, as the workshop contained a large quantity of valuable teak-wood, etc. In addition, the laundry and clothes-making section is included in this area, and our representative noticed the skeletons of half a dozen sewing-machines which had been destroyed in the flames.

T. R. H. The Foreign Minister, the Minister for Local Government, Prince Naradhip and several other dignitaries arrived at the Gaol shortly after the outbreak, and remained for a considerable time. Drs. Hays and, Macfarland were quickly in attendance on the wounded, both gentlemen working unceasingly. It was understood that one of the very badly wounded would have to be amputated on Sunday, but it was ultimately decided not to perform the operation, the choice being humanely left to the injured man himself, whose life, we may add, is despaired of. The dead and wounded prisoners whom we saw appeared to be in fine healthy condition, a tribute to the excellence and sufficiency of the prison rations. One incident of the mutiny which among others has been misrepresented, is the panic caused among the peaceful prisoners by the tumult—the real fact being that a number of those in the main square broke into the lodge for shelter, where however they did no harm. The alleged cause of the outbreak is stated to be dissatisfaction on the part of the convicts with the conditions of their servitude—i.e., when they are committed to prison the duration of their sentence is not communicated to them, so that they naturally object to knowing whether they are incarcerated for one or for twenty years. In contrast to this, each man is made an allowance of five cents per diem. Surely if the amount of this allowance were reduced and the afore-mentioned hard conditions ameliorated, it would be a step in the right direction, and one more in accordance with advanced canons of law? Another somewhat serious item connected with the outbreak is, the means whereby the convicts obtained the hatchets with which they burst open the door, as also the weapon wherewith one of them attempted self-destruction. It may be added that the Sikh guards at the prison were removed on the 1st of April, so that advantage may have been taken of their absence.

The New Gaol near Patoo Sam Pee was opened for the reception of prisoners in May 1891, since which date it has been the scene of no less than three outbreaks, of which the one above described is undoubtedly the most serious in extent and possible consequences. The first occasion was on December 4th, 1891, when five of the prisoners paid the penalty of their attempt, and the second was May 2nd of last year, when two were killed. Considering all the circumstances of the recent *emeute*, together with its obvious premeditation, the gaol authorities deserve every credit for the promptitude of the measures taken to suppress the outbreak and recapture the escaped convicts.—*Bangkok Times.*

THE CHINESE IN JOHORE.

Says a Johore correspondent in a Ceylon newspaper:—The Malay Peninsula ought to be opened up by railway as soon as possible to unite Australia and India and help on the consolidation of our Colonial Empire. It is just over 2,000 miles from here to Calcutta, and it is just under 2, 00 miles from Adelaide to Port Darwin; from there to Singapore six days steam or less. I suppose the Australians have made about 600 miles from South to North and from Port Darwin South about 180. Every mile would be taken up in the Johore territory as soon as made. I mean the land on both sides. Gambier planters are hungering and thirsting for new lands whereon to grow gambier and it grows nowhere better than in Johore—it is a leaf crop and the frequent rain suits its nature well. Here the Chinese are welcomed. Our good Sultan gives them every encouragement and leaves them to themselves as much as possible. I mean by this he does not harass them by unnecessary rules, laws, and regulations, and they, being guaranteed security for life and property, thrive wonderfully in Johore cultivating gambier and pepper. Many come and go to and fro—passage $3 to China; by steamer it is only $5 to $7. The coolies at the saw mills constantly visit their native place in the Amoy Province. Singapore would be nothing without the Chinese. Malacca is their paradise. They are a wonderful people, can live where Europeans would starve—it will become a great problem what we are to do with them, or, as it has been said, what they will do with us! Our policy is to be friendly with them, they are great in point of numbers—led by a Gordon they would go anywhere and do anything.

FOOCHOW.

29th April.

Again we have to report failures amongst the natives in the piece-goods trade. This week two more, with liabilities of $30,000 and $10,000 respectively.

One of the two escaped prisoners from the city jail, for whose arrest gradually increased rewards have been offered, has at length been captured and is to undergo very severe punishment.

A false report having gained currency amongst the natives that the Treasury had been introducing counterfeit silver coins in payments they had to make, the Treasurer, for his own safeguard, insists on having a written voucher from all parties receiving dollars from him, to the effect that they are all good money.

We recorded last week the arrival of large quantities of rice from the Northern ports and Korea. Of these, 20,000 piculs have been stored in the Government granaries. The cost is said to be little over $3,000 cash a picul, from which it may be judged that the reserve is grain of low quality, or coolie rice.

A fight took place at the East gate of the city on Monday last between some coolies carrying baskets and the *likin* officers, the latter insisting on seeing the contents, which the carriers objected to. The *likin* officers got the worst of it, one of them very much so, from a severe blow on the head from a heavy bamboo which nearly killed him. One of the coolies has since been identified, and having been handed over to the authorities is now lying in prison awaiting his trial.

A few days ago a Ningpo junk, laden with general cargo, was captured by pirates while on her voyage to this port. All the cargo was abstracted, but the junk with her captain and crew were allowed to go free. On her arrival here the case was reported to the authorities and eight war junks were immediately sent out in quest of the pirates, the result of which we shall hear by and by. In the meantime, the Viceroy has warned the mandarins, whose duty it is to watch the coast, to be more careful in the future, as the next reported occurence of a similar nature will assuredly lead to their being dismissed from their posts.—*Echo.*

SHANGHAI.

Mr. Herzog, chief officer of the *Alwine Seyd*, has been presented by the Emperor of Germany with the gold medal of the Royal Humane Society for his gallant conduct at the *Maria*, which was wrecked near Chefoo on 31st December, 1891. The medal was presented through the German Consul-General at Shanghai last week.

Some people in a house on the French bund, next door to the godowns of Messrs. Butterfield and Swire, were startled on the 30th ult. by the unexpected breaking of the window panes in a room on the second floor. Upon examination, two pistol bullets were found embedded in the wall opposite the broken windows. The matter is in the hands of the French detectives.

The French police have made an important capture of three foreigners who have been making demands for money on private houses in the suburbs, armed with forged certificates. A number of counterfeit Consular seals were found in their possession, with some very compromising documents. Their nationality is at present uncertain, but one of them pretends to be a subject of the Duchy of Liechtenstein, which has a total population of only some 8,000 or 9,000 souls.

A fireman named Moak, belonging to the *Golden Cross* lying at the Pootung Wharf, met his death on the 30th ult. by drowning. He and a shipmate named Murphy had been ashore drinking and after they got into their sampan, Murphy had a tussle with the sampanman for the possession of the yuloh. The sampanman surrendered it to him, and while essaying to use it, Murphy fell into the water, but being a good swimmer, he got on board again. Again he tried, and again fell overboard, and while trying to get on board, Moak pushed him under the water. This decided him to make for the shore, and he landed a short distance from his vessel. On looking round, he could not see Moak. It appears that the latter stood up on the bow of the boat and fell into the water. He rose once and then sank. The body has not been recovered. The above facts were elicited at an enquiry held before Mr. Scott, when the Chief Officer of the vessel, Murphy, and the sampanman gave their testimony.

About three months ago a pawnshop in Shanghai attempted to return to the old rate of interest charged on deposits and securities before the Taiping Rebellion, that is to say, instead of the present rate of 24 per cent. per year, they only charged 16.8 per cent. This innovation of course brought the Pawnship Guild down on the proprietors, who being deaf to remonstrances were subsequently sued at the Shanghai magistrate's *yamên* both by the guild and by a number of other pawnshops. The plea of the defendants was that they did this for the benefit of the poorer classes of the people who, he it said, were not at all averse to the new order of things, and who of course left the other pawnshops entirely in the cold. Being dissatisfied at the decision of the Chahsien who decided against them, the defendant proprietors appealed to Tâng Hsi-hua, the Provincial Treasurer at Soochow. The rescript or rather judgment of the Fantai has now arrived and must have been like cold water down the backs of the advocates of the old *régime*. It is to the effect that "his Excellency had great pleasure in noting the philanthropic intentions of the appellants and that he recognised their wish to assist the poorer classes. Not to disappoint them, therefore, he decreed that the appellants should still charge the present rate of 24 per cent. but at the end of each quarter they were to deduct the difference between that and 16.8 per cent., to be paid to such charitable institutions as shall be indicated by the Shanghai magistrate. If, on the other hand, the appellants should refuse to do this, they are to be punished according to the law provided in such cases—fighting against the regulations of their guild—and furthermore are to be subjected to a heavy fine." The reason for all this "philanthropy" has now leaked out. All the other large pawnshops are saddled with government funds, amounting to a total of Tls. 300,000, placed in their hands at a forced interest of 14½ per cent. per annum; whilst the appellants having no government money confided to their care are at liberty to make all of the 16 8 per cent. profit, whereas those not thus situated can only make the difference between 24 and 14.4 per cent. or 9.6 per cent. on their gross earnings. This was the "philanthropy" which sounded so well to those who were not *au fait* in such matters.—*N. C. Daily News.*
